PATENT Elastic Fire and Water Proof CEMENT ROOFING.

THE undersigned is prepared to introduce into use in Tennessee W. E. CHILLIS & CO'S PATENT ELASTIC FIRE AND WATER-PROOF CEMENT ROOF. ING, and asks the attention of Architects, Builders, Railroad Companies, and the public, to examine its superiority over other Roofing. Architects and Builders Should not lim to examine this Reeding, as it is better and cheaper from any thing in use. The material forms a hard and smooth surface that will resist the action of the atmosphere in every climate. It is impervious to water, elastic, and flexible. It contracts and expands with the changes of the atmosphere, and will neither evaporate, crack nor ret; and, as to its durables, there is no elastic. will neither evaporate, crack hor rot; and, as to its durability, there is no question.

It is practically imperishable, and will perfectly resist any ordinary external exposure to fire, as is fully and abundantly proven, and we will warrant it water proof. We will engage to put our Roofing on over ordinary good sheathing, old shingles, tar and gravel, tin, zinc, copper, or iron roofs—it making no difference how steep or dat they may be—for seven dollars per one hundred square feet; it being far cheaper than any roof of the old style, and we are sure it will give better satisfaction. ter satisfaction.

It will also be found to be the best thing ever invented to cover or mend old leaky tin, tar and gravel roots, or around channeys, scuttles, dormer windows and gutters, where the tin is rusted through. This Cement can be put on to last as long as store, and form a perfect adhesion to any object to which it is applied. The Roofs can be comented over (and warranted not to leak) at two dollars and nity cents per hundred square feet, which is cheaper and must better than paint. This Roofing will be found to be the best thing for covering large Roofs where they are exposed to fire—such as Steam Mills, Saw Mills, Factories, Railroad Cars, Bridges, Depots, Station Houses, posed to fire—such as Steam Mills, Saw Mills, Factories, Raifrond Cars., Bridges, Bepots, Station Houses, Steamboat Decks, and in fact every kind of Roof where there is an external exposure from fire. As the Roof is perfect, without a joint in it, it presents no chance for fire to communicate, and any light substance will burn out without igniting.

23 Insurance offices at Cincinnati, and other places where Chibis & Co's Cement has been used, insure Buildings with Roofs covered with this Cement, at the same rates as for those covered with Iron, Copper or

tance with directions for using.

Roca's Remedy for Pulmonary and Tubercular Consumption. HAVING been appointed sole Agent for the saie of Bon Gransimo Roca's celebrated Cran ron Cox-stration, the public will now be put in possession of one of the most extraordinary remedies extant for what has heretofore been considered an incurable disease.

I have the more readily undertaken the agency, from the fact of its extreme simplicity—being an out-ward application, the action of which is seemingly miraculous, and its having none of these attributes which make up the numerous compounds now in general

with the utmost confidence in the success of this remedy, which has heretofore been used in private practice with great success, as is shown by numerous letters and certificates, is now offered to the public.

A pamphlet, containing directions, letters from distinguished individuals, and documentary evidences from the physicians of the hospital of Havana, Island of Cuba, &c., will accompany the remedy.

These speak volumes in its praise, and publicity is only required to render it as popular as it is bene2-cal. Address, only required to render it as popular as only required to render it as popular as only required to render it as popular as only required states, sole Agent for the United States, Sole Agent for the United States,

wonderful effects of a popular medicine, but in send-ing you the certificate I feel that I am only discharging a duty that I owe to the Græfenberg Company, and more especially to suffering humanity.

About the first of June last, I had a negre man taker with a cough attended with restlessness, spitting of blood, and other dangerous symptoms of consumption. I immediately called in a truly skillful and scientific physician, who told me it was a case of consumption. He treated him for several weeks, but he gradually grew worse. I then had another physician of great utation in lung diseases. He examined lum, and decided it to be a hopeless case of consumption, and said it was uscless to spend money is trying to here, (Messrs, Weils & Lowell,) that when the doctors gave him up I would try the Gradenberg Consump-tive's Balm. I did so and to my agreeable surprise, the man began to improve after taking only five or six dozes. He took only two bottles of the Balm and

three bottles of the Græfenberg Sarsaparilla Compound, which cost me the small sum of nine dellars, and to day I consider him entirely cured. He is worth \$1,200, and he is doing me good service on the plantation. I consider him perfectly sound and well as he is fat, hearty, and strong, without a vestige or sign of diseas Ciarborne, Ala. I have used the Græferberg Consumptive's Balm in severe cases of consumption, in my practice, with the happinst effect. I wish all would use it. S. MEDARIS, M. D. Totten's Wells, Tonn.

The Grafenberg Consumptive's Paim will effectually cure Consumption and all complaints of the lungs. In cases of Cold on the Lungs and Chest, Languer combined with Difficult Breathing, Pains in the Chest, and Bronehitis, the Grafeqberg Consumptive's Baim will effect a complete cure and prevent the disease from becoming a confirmed Consumption. In all cases, de-lays are dangerous. They are as an hundred fold to all diseases having a tendency to Consumption. We earnestly advise all to procure the Consumptive's Balin Ar The price of the Consumptive's Balm is \$3 pe ALEX. A CARD. A Swe have determined to do an exclusive CASH BUSINESS this year, we feel that a word of exticular friends, who have had accounts with us, ever since we commenced business, and we are proud to say we have many such friends, who have always paid their accounts promptly. We feel conflicient we can make it greatly to the interest of all, by buying our goods cheaper, and of course selling them very much cheaper. There are many persons in our midst who would prefer buying for cash, if it could be made to their interest to do so. We know many who do not have accounts, and we think it unfair that persons who buy for cash should pay the same prices as these who buy on credit. It is with these considerations we have adopted an excitative cash system, and we invite all who are in favor of the system, as well as all those who are in favor of buying goods cheap to give us a who are in favor of buying goods cheap to give us a call.
